

FRONT END DEVELOPER

Hunain Afzal

PROFESSIONAL SUMMARY

Hey! Crafted a user-friendly job portal and a standout company portfolio. Also, had a blast creating solid websites on WordPress and Shopify—love the versatility.

Excited to bring my skills and passion to your team. Let's dive in and make awesome projects even better!

EXPERIENCE

Junior Front-End-Developer, Kaj Consultancy,
Pakistan, Karachi
2023 - Now

Started as an intern for two months at Kaj Consultancy in Pakistan, then landed the Junior Front-End Developer role. Rocked HTML, CSS, and JavaScript, and spiced things up with React JS and Vue JS. Learned loads, crafting user-friendly websites that catch the eye for various clients.

Responsibilities and achievements:

- Developed front-end of multiple client websites
- Collaborated with design team to create responsive layouts
- Conducted user testing and made necessary improvements
- Assisted in troubleshooting and debugging website issues
